Projects

Formly | *NextJs, PostgreSQL, TailwindCSS, TypeScript*

Jan 2025 - Jan 2025

- Built an AI-driven form builder that transforms natural language prompts into fully functional, customizable forms.
- Implemented secure user authentication, enhancing access control and data security.
- Enabled form submission handling with persistent storage and export options for seamless data management.
- Integrated smart field suggestions, conditional logic, and adaptive layouts to streamline the form creation process.

JobHuntly | *NextJs, PostgreSQL, TailwindCSS, TypeScript*

Nov 2024 - Dec 2024

- Developed a dynamic platform enabling users to search, filter, and save job listings based on role, location and skills.
- Implemented robust security measures to ensure that users' personal entries remain safe and private.
- Built a recruiter dashboard allowing companies to post jobs, manage applications, and view candidate's profiles.
- Integrated resume upload, smart job recommendations, and real-time application tracking for job seekers.

Training

Hitbullseye- Training

Jun 2024- July 2024

- Gained In-depth knowledge of Data Structures and Algorithms and their practical applications.
- Implemented advanced problem-solving techniques using Java, focusing on optimization and efficiency.
- Developed an image compression algorithm that reduces file size while preserving image quality by applying lossless and lossy compression techniques.
- Optimized storage and retrieval efficiency by implementing Run-Length Encoding (RLE) and Discrete Cosine Transform (DCT) for effective image data compression.

Certifications

Linux Kernel Development

Jan 2025

Linux Foundation

Cloud Computing

Nov 2024

NPTEL

Technical Skills

Languages: C++, JavaScript/TypeScript, Java, Python

Technologies/Frameworks: Tailwind CSS, React JS, Node JS, Git, GitHub, Express JS, AWS

Skills: Data Structures and Algorithms, Problem-Solving, Scripting in Python and JavaScript

Education

Lovely Professional University Punjab

Aug 2022 – April 2026

Computer Science and Engineering — CGPA: 7.11

Jalandhar, Punjab

Ascent High School

July 2020 – March 2022

12th with Science — Percentage: 96.50%

Visakhapatnam, Andhra Pradesh
